

Call for Papers

„Credible Identification and Structural Modeling (CrIStM.as)“

a.k.a. „Natural Experiments and Controlled Field Studies“

June 14-16, 2019 – Ohlstadt, Hotel Alpenblick

The aim of the workshop is to bring together leading international researchers and in particular junior researchers using natural experiments, structural empirical approaches, or controlled field studies to achieve credible identification of causal relationships in economic research. There will be plenty of scope for in-depth scientific interactions between junior and senior researchers. The workshop will take place **June 14–16, 2019 in Ohlstadt** near Munich.

We will cover the costs for travel, accommodation, and workshop participation (including meals) for all presenters.

All researchers interested in presenting are invited to submit completed papers or extended abstracts (~3-5 pages). There will also be the possibility to present in a poster session.

Submissions (PDF of the paper or extended abstract) should be sent **no later than February 24, 2019** to ammerseeworkshop@googlemail.com. Accepted participants will be informed no later than March 15, 2019.

Organizers: Florian Englmaier (LMU Munich), Christina Gathmann (U of Heidelberg), Georg Gebhardt (U of Ulm), Susanne Prantl (U of Cologne), Dirk Sliwka (U of Cologne), Fabian Waldinger (LMU Munich) Joachim Winter (LMU Munich)
