WORKSHOP VENUE

[BVS-Bildungszentrum Holzhausen](#)

We are inviting empirical papers for a research workshop on the **Economics of Firms and Labor**. The annual workshop intends to bring together senior and junior economists working at the frontier of research on the topic. We welcome submissions from a number of fields including Organizational Economics, Personnel Economics, Industrial Organization, and Labor Economics.

The workshop will take place on **June 3–5, 2022** in the outskirts of Munich, beside the beautiful lake of Ammersee in Bavaria, Germany.*

We will cover the costs for travel, accommodation, and workshop participation (including meals) for all presenters.

Interested researchers are invited to submit papers or extended abstracts (maximum 3 pages). There will also be the possibility to present in a poster session for PhD students.

Please submit your full paper or an extended abstract to firmsandlabor@gmail.com by April 10, 2022. Accepted participants will be informed by April 15, 2022.

*We expect the workshop to be in-person, but it will change to a hybrid or virtual format on the same dates if required by the Covid-19 situation.
